

GOVT. OF INDIA

LAKSHADWEEP ADMINISTRATION

(Department of Information Technology)

(Lakshadweep Information Technology Services Society)

Kavaratti – 682 555

F.No. 12/2/2012-LITSS-VOL-III

Dated: 11 .11.2015

**Circular**

**Sub: Island Wide OFC FTTN Network at Kavaratti-General Instruction- Reg.**

The Lakshadweep Information Technology Services Society (LITSS) has undertaken the project to connect departments of UTL Administration through OFC at Kavaratti. The implementation phase of the project is underway and the OFC is being terminated at each Department.

In order for the proper termination of OFC network at each site, this Department is also providing a L2 switch & FDMS at each office. While these items would be under warranty/AMC/O&M, physical damage or damage due to electrical surge and/or damages caused by tampering with the devices would be the responsibility of the respective department.

Accordingly the Department is issuing the following guidelines that are to be strictly followed:

- a. Ensure safety of switches, FDMS, Patch panel which are to be kept away from any direct moisture.
- b. Ensure safety of lockable metal based 9U racks which is already in place or will be provided shortly where it is not available.
- c. ENSURE POWER SUPPLY TO THE DEVICES IS NEVER TURNED OFF. This is of critical importance and if not followed may result in disruption to the OFC network connectivity.
- d. A UPS of 1 KVA or higher capacity shall be installed at the OFC termination point. Departments are instructed to ensure a UPS is available.

(J.ASHOK KUMAR, IAS)  
SECRETARY (IT)

To.

1. All the Head of the Departments (HoD's)
